Education and training

Dedicated and driven first class honor graduate of Information Technology (IT) with problem solving and analytical skills. I have a strong passion for academic excellence and a proven track record of community involvement. I am a quick learner and an open-minded team player who is passionate about pursuing a career as a researcher and academia, with the hope of making crucial and numerous contributions via innovative software development technologies and research. I am committed to make a positive impact in my field and society as a whole.
